

CLENA Water Flow Heater HW-DK-ND

This mobile, oil-fired, continuous-flow heater provides reliable hot water for professional cleaning and decontamination tasks. The supplied water is heated instantly via a thermostatically controlled burner system and can reach temperatures of up to 90°C, depending on the flow rate. Designed for use with booster pumps, the unit ensures a constant hot water supply for demanding field and industrial applications.

Technical Data:

Water flow rate:	approx. 20 l/min to max. 42 l/min (2.520 l/h)
Hot water at outlets:	20°C – 90°C
Operating pressure:	2 bar to max. 20 bar
Diesel Burner output:	approx. 90 kW power
Diesel consumption:	approx. 7,8 l/h
Integrated Diesel tank:	20 l capacity
Mains electrical connection:	230V/50Hz/175W/IP55
Electrical control system:	N/A
Flame Control System:	thermally controlled
Control light green:	N/A
Control light red:	N/A
Hot water outlet:	1 outlet with valve on front side
Cold water inlet:	1 inlet
Connectors:	Geka coupling at inlet/outlet
Temperature gauge:	N/A
Pressure gauge:	N/A
Dimension (L x W x H):	approx. 700 x 570 x 800 mm
Weight (net):	approx. 75 kg
Chassis:	Epoxy coated steel frame, stainless steel side covers, 4 wheels
